The King's College Young Scholar program is for gifted high school seniors, and in some instances, juniors may take first-year or introductory-level courses during the academic year and in the summer at King's College. The purpose is to orient talented local high school students to the college environment and to provide each student with an extensive, challenging experience in an academic discipline.

To qualify for the program, high school seniors should be in the top 20% of their class, and juniors in the top 10% of their class. Students need to complete the application/registration form for the program, and have their guidance counselor recommend them by signing the form and sending it along with a copy of their transcript, to the Young Scholars Program at King's College. Students can obtain the **application/registration** form from their local guidance office.
