

FINANCE

BACHELOR OF SCIENCE IN BUSINESS ADMINISTRATION (B.S.B.A.)

Influence strategic business operations and decisions through the art and science of finance!

Finance involves the management and control of money and money-related operations within a business. Finance also refers to the financial input needed for general business decisions such as the adoption of investment projects and securing the funding for the projects.

OPPORTUNITIES AT KING'S COLLEGE

Our program provides an extensive general background in business; the major requirements emphasize the entrepreneurial and global aspects of business required of a business professional. Here is what else makes our program unique:

Small class sizes: offer the opportunity for students to get one-on-one feedback and guidance from professors.

Integrates and builds upon the CORE Curriculum: the courses/skills, including oral and written communication competencies, information technology, and critical thinking enhance the student's business knowledge.

Various elective courses & internships: allow students to dive into topics that interest them most. Explore local, national, or global internships that grow field experience and networking opportunities!

Accredited by AACSB International: the Association to Advance Collegiate Schools of Business (AACSB) Accreditation is the hallmark of excellence in business education and has been earned by less than 6% of the world's business programs.

RYAN HINKLE '25
Finance & Accounting major

"At King's, the curriculum went far beyond coursework—I found mentors who challenged me to grow and provided guidance in navigating the professional landscape. The finance program not only prepared me for professional licensing exams like the SIE, Series 7, and Series 66, but also strengthened my passion for investing and financial literacy."

CAREER OPPORTUNITIES

Studying finance gives the student strategic training in business, an appreciation of and ability to use the modern tools of management, an exposure to a broad range of business subjects and opportunities, and a wide range of career options, such as business enterprises, not-for-profit organizations, or government service, as well as graduate and/ or professional school. Graduates can find successful careers as:

- financial examiner
- financial analyst
- financial manager
- personal financial advisor
