

# OCCUPATIONAL THERAPY

## BACHELOR OF SCIENCE (B.S.) + DOCTORATE IN OCCUPATIONAL THERAPY (O.T.D.)

**If you're inspired by helping others, especially those living with disabilities, explore occupational therapy.**

Human beings live and learn through meaningful occupations that evolve across our lifespan and are essential to our well-being and quality of life. However, injuries, chronic health issues, and disabilities can prevent us from enjoying even the most basic activities that many take for granted every day, which is where occupational therapists come in.

### OPPORTUNITIES AT KING'S COLLEGE

The in-person 3+3 B.S./O.T.D. program requires six years of academic studies. This accelerated degree program leads to an entry-level Clinical Doctorate after graduating with a Bachelor of Science in Exercise Science with a Minor in Neuroscience and Psychology. Here is what makes our program unique:

**Cutting-edge facilities:** our new Frank and Carolyn Kowalski Center for Advanced Healthcare Education offers pediatric, physical rehabilitation, daily living, and cadaver labs, many of which feature augmented reality technology and 3D imaging and printing services.

**Doctorate level occupational therapy education:** this degree positions you as a leader in the field, empowers you to contribute to the advancement of OT through research, and future-proofs your career to help you remain competitive and adaptable.

**Specialized expertise:** broaden your knowledge through graduate electives with unique specializations in social justice, innovation, neurodiversity, or trauma informed care.

**Valuable mentorship:** engage with top clinicians, leaders, and businesses through our Leadership Program, which offers unique and valuable mentorship opportunities.

**KING'S  
COLLEGE**  
TRANSFORMATION. COMMUNITY. HOLY CROSS.

## CAREER OPPORTUNITIES

A Doctor of Occupational Therapy (OTD) degree from King's College opens numerous occupational therapy careers in the healthcare sector and beyond. Graduates can specialize in advanced clinical areas like pediatrics or geriatrics, offering tailored care and intervention. The degree also leads to opportunities in healthcare administration, where OTD professionals manage departments, shape policies, and oversee operations. Graduates can find careers as:

- occupational therapists
- orthotists & prosthetists
- physical therapists
- recreational therapists
- medical & health services managers

## DEGREE REQUIREMENTS

Below is a sample of courses offered in this program. For a complete list of programs and courses, see our Degree Requirements online.

OT 101	Intro to Exercise Science & OT
EXSC 150	Preven. Treat.& Emeg. Care of Injuries
SOC 101	Introduction to Sociology
CHEM 107	General, Organic, & Biochemistry
CHEM 107L	General, Organic, & Biochemistry Lab
PSYC 101	Introduction to Psychology
OT 102	Foundation of OT Practice: Professionalism
HCE 101	Holy Cross Experience
OT 103	Found. of OT Practice: OTPF & Medical Term
EXSC 280	Clinical Kinesiology & Anatomy
EXSC 290	Exercise Physiology
EXSC 219	Anatomy & Physiology
EXSC 220	Anatomy & Physiology II
EXSC 219L	Anatomy & Physiology Lab
EXSC 220L	Anatomy & Physiology II Lab
NEUR 345	Psychopathology
Math 126	Introduction to Statistics
OT 210	DEI & Cultural Dynamics
PHYS 108	Applied Biophysics
PHYS 108L	Applied Biophysics Lab
EXSC 309	Electro cardiology
EXSC 310	Assessment & Measurements in Exercise
EXSC 330	Alternative Methods to Exercise
EXSC 310L	Assessment & Measure. in Exercise Lab
OT 470	Research Methods
EXSC 320	Exercise & Special Populations
PSYC 355	Develop. Psyc: Children & Adolescence
PSYC 356	Develop Psyc: Adulthood and Aging
OT 310	Foundations of OT Practice: Essentials of OT
