

SOCIOLOGY

BACHELOR OF ARTS (B.A.)

Understand relations among all parts of society by analyzing and predicting how social groups function and change.

Sociology includes the study of institutions such as family, work/occupations, education, religion, military, welfare, and social work. Also prominent in Sociology is the study of the problems facing society, such as crime, poverty, juvenile delinquency, terrorism, aging, and minority/majority group relations. It is unique among the social sciences because it is not limited in focus to a single institution or level of analysis but emphasizes the relations among all parts of society.

OPPORTUNITIES AT KING'S COLLEGE

The undergraduate major in sociology is valuable training for a variety of occupations. Many graduates go on to fascinating careers in diverse jobs that are emerging in our changing society. Here's what makes our program stand out:

Expert faculty: our faculty members are industry experts and mentors committed to your personal and professional development. They guide you through the intricacies of business management, ensuring you gain valuable insights and skills during your time at King's.

Personalized academic experience: small class sizes ensure each student receives individual attention from faculty, fostering a personalized academic journey. This close-knit learning environment enhances student-faculty interaction and mentorship.

Pre-law program available: you can complete your undergraduate requirements at King's College before transferring to a partner law school to complete your J.D.
