

NEUROSCIENCE

MINOR CONCENTRATION

A minor concentration requires a minimum of six courses, representing at least eighteen credits, in the minor field of study. In addition, a department may add academic prerequisites or requirements in related fields, but the total will not exceed 60% of the department's major program requirements. Minor requirements are listed under departmental entries. In order to complete requirements for a minor, the student must take the majority of credits in the minor field at King's. Minor areas of concentration (minors) are permitted, but not required.

Monitoring of student progress in pursuing a minor in Neuroscience is necessary to enhance the student learning experience. Therefore, a written declaration must be submitted by the student to the Registrar.

Minor Requirements <i>(6 courses – 20 credits)</i>	Credits
BIOL 113 General Biology I w/Lab AND BIOL 210 General Biology II w/Lab OR	8
CHEM 113 General Chemistry I w/Lab AND CHEM 114 General Chemistry II w/Lab	
NEUR 211 Neuroscience I	3
NEUR 212 Neuroscience II	3
<i>One Neuroscience elective</i>	3
<i>One additional elective from Natural Science</i>	3
