

# BIOLOGY

## MINOR CONCENTRATION

---

A minor concentration requires a minimum of six courses, representing at least eighteen credits, in the minor field of study. In addition, a department may add academic prerequisites or requirements in related fields, but the total will not exceed 60% of the department's major program requirements. Minor requirements are listed under departmental entries. In order to complete requirements for a minor, the student must take the majority of credits in the minor field at King's. Minor areas of concentration (minors) are permitted, but not required.

Monitoring of student progress in pursuing a minor in **Biology** is necessary to enhance the student learning experience. Therefore, a written declaration must be submitted by the student to the Registrar.

<b>Minor Requirements</b> <i>(6 courses)</i>	<b>Credits</b>
BIOL 113 Evolution and Diversity with Lab	4
BIOL 210 Organisms and Their Ecosystems with Lab <i>(Prerequisite: BIOL 113)</i>	4
BIOL 213 Cell and Molecular Biology with Lab <i>(Prerequisite: BIOL 113, BIOL 210)</i>	4
BIOL Elective*	3
BIOL Elective*	3
BIOL Elective*	3
<i>A minimum of three (3) BIOL electives chosen in consultation with departmental advisors.</i>	

For more information regarding the **Biology** minor including but not limited to course descriptions, elective requirements, and department chairpersons, please visit the online college course catalog.
