

MATHEMATICS

(STATISTICS CONCENTRATION)
MINOR CONCENTRATION

A minor concentration requires a minimum of six courses, representing at least eighteen credits, in the minor field of study. In addition, a department may add academic prerequisites or requirements in related fields, but the total will not exceed 60% of the department's major program requirements. Minor requirements are listed under departmental entries. In order to complete requirements for a minor, the student must take the majority of credits in the minor field at King's. Minor areas of concentration (minors) are permitted, but not required.

Monitoring of student progress in pursuing a minor in **Mathematics** is necessary to enhance the student learning experience. Therefore, a written declaration must be submitted by the student to the Registrar.

Minor Requirements for Mathematics Minor with Concentration in Statistics <i>(6 courses – 21-23 credits)</i>	Credits
_____ MATH 129 Analytic Geometry and Calculus I	4
_____ MATH 130 Analytic Geometry and Calculus II	4
_____ MATH 231 Analytic Geometry and Calculus III	4
_____ MATH 361 Probability and Statistics I	3
_____ <i>Plus: ONE of the following four (4) courses: MATH 124, MATH 126, MATH 128, MATH 362</i>	3-4
_____ <i>Plus: ONE additional MATH course numbered 124 or higher approved by the chairperson of the Mathematics Department.</i>	3-4
