

NEUROSCIENCE

MINOR CONCENTRATION

A minor concentration requires a minimum of six courses, representing at least eighteen credits, in the minor field of study. In addition, a department may add academic prerequisites or requirements in related fields, but the total will not exceed 60% of the department's major program requirements. Minor requirements are listed under departmental entries. In order to complete requirements for a minor, the student must take the majority of credits in the minor field at King's. Minor areas of concentration (minors) are permitted, but not required.

Monitoring of student progress in pursuing a minor in **Neuroscience** is necessary to enhance the student learning experience. Therefore, a written declaration must be submitted by the student to the Registrar.

Minor Requirements (6 courses – 20 credits)	Credits
Total of TWO of the following natural science courses with laboratories:	
BIOL 113 General Biology I w/Lab	
BIOL 210 General Biology II w/Lab	8
OR	
CHEM 113 General Chemistry I w/Lab	
CHEM 114 General Chemistry II w/Lab	
AND	
NEUR 211 _____, NEUR212 _____, & one neuroscience elective _____	9
OR	
NEUR213 _____ & two neuroscience electives	9
AND	
One natural science elective	3
