- **Technology Requirement:** Students must have a laptop computer with a video camera and microphone, as well as reliable internet access, for the duration of the program. (cost not included).

ACCREDITATION INFORMATION:

King's College entry-level Doctorate of Occupational Therapy (OTD) program has been granted Candidacy Status by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association located at:

c/o Accreditation Department American Occupational Therapy Association (AOTA)

7501 Wisconsin Avenue, Suite 510E

Bethesda, MD 20814

Tel: 301-652-6611

<https://acoteonline.org/>

The program must have a pre-accreditation review, complete an on-site evaluation, and be granted full Accreditation Status before its graduates are eligible to sit for the national certification examination for the occupational therapist administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an Occupational Therapist, Registered (OTR). In addition, all states require licensure to practice; however, state licenses are usually based on the results of the NBCOT Certification Examination. Note that a felony conviction may affect a graduate's ability to sit for the NBCOT certification examination or attain state licensure.

Under the 2023 ACOTE Standards, OTD students must complete 24 weeks of Level II fieldwork and then undertake an individual 14-week full-time capstone experience, which may only begin after all coursework and Level II fieldwork, and after having completed preparatory activities (e.g., literature review, needs assessment, goals/objectives, evaluation plan) as defined in Standard D.1.3.
