

1-2-1 NURSING DUAL DEGREE PROGRAM

The new King's/LCCC Dual Degrees in Nursing (DDN) offers students a seamless route to earning the BS in nursing degree in just four years. The DDN is tailored to the traditional-aged first-year college students seeking a four-year degree in nursing. Both King's and LCCC are well regarded by students interested in careers in the health science fields. In fact, a branding study commissioned by the College in 2014 found that King's enjoys an outstanding reputation among prospective students as a great school for allied health programs. The offering of the Bachelor of Science Degree in nursing adds an important new dimension to the College's allied health portfolio, providing yet another avenue for students interested in careers in health care.

A Joint Effort

The 1-2-1 Dual Degrees in Nursing is based on students doing course work on both campuses. It offers a unique dual-degree partnership that allows students to receive two degrees, an AS and a BS in nursing, in four years. Students will spend the first and fourth years at King's completing

the general education and upper level nursing requirements for the Bachelor of Science degree; the middle two years will be devoted to nursing studies at LCCC, at either the main Nanticoke campus or LCCC's downtown Wilkes-Barre campus, located just steps away from King's College. These courses will include laboratory courses and clinical studies. Additional core courses will be taken at King's during years two and three. Nursing students may participate in King's NCAA sports

and live on the King's campus throughout the entirety of the program.

A Path to Success

At the end of the third year, students will take the National Council Licensure Examination for registered Nurses (NCLEX-RN). During the final year, students articulate as full-time students into the King's RN to BS in Nursing program to complete BS-level nursing courses and any outstanding core courses.

To learn more about majoring in Nursing at King's College, please contact the Office of Admission at 1-888-KINGS PA or admissions@kings.edu.

1-2-1 Nursing Dual Degree Program (126 Credit Hours)

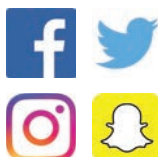

Suggested Sequence

A suggested course sequence of degree requirements is listed below. Refer to the college catalog for course titles, descriptions, and prerequisites. Always consult your Academic Advisor when planning and scheduling your classes.

I st Year - Fall	cr.	I st Year - Spring	cr.
BIO 135 Anatomy & Physiology I* <i>(satisfies Scientific Endeavor Core at King's)</i>	4	BIO 136 Anatomy & Physiology II* <i>(satisfies Science in Context Core at King's)</i>	4
ENG 101 English Composition* <i>(satisfies ENGL 110 Academic Writing at King's)</i>	3	BIO 251 General Microbiology*	4
