In any given year, the sixth and seventh semester retention rate may include students who have graduated early.

Beginning with the 2013 cohort, the 6th and 7th semester retention rates include Engineering students attending the University of Notre Dame.

* Beginning in 2013, the 4-yr graduation rate does not include students from the cohort enrolled in the engineering program at the University of Notre Dame who have made appropriate academic progress in their program but cannot be included in the graduation rate because they have not yet completed an undergraduate degree.
