## Bachelor of Science (B.S.)

## Minimum Credits Required for Graduation $=120$

*In addition to the major sequence requirements, a Neuroscience Major must also complete four science elective courses from the following list. At least two (2) of these courses must include a laboratory component. (Some courses will require the laboratory component, as determined by the instructor):

| Science Electives |  |  |  |
| :--- | :--- | :--- | :--- |
| BIOL 221 \& 221L | BIOL 326 \& 326L | NEUR 342 | NEUR 390 |
| BIOL 222 \& 222L | BIOL 336 \& 336L | NEUR 345 | NEUR 391 |
| BIOL 314 \& 314L | BIOL 380 | NEUR 346 | PHYS 111 \& 111L** |
| BIOL 323 \& 323L | BIOL 447 \& 447L | NEUR 348 | PHYS 112 \& 112L** |
| BIOL 324 \& 324L | BIOL 456 \& 456L | NEUR 349 \& 349L |  |

** In preparation for graduate or professional school, Pre-Healing Arts students should complete the two-semester sequence in Physics (PHYS 111, PHYS 111L, PHYS 112, and PHYS 112L).
${ }^{1}$ Students are required to take CORE 180 OR CORE 190 to fulfill the Interdisciplinary CORE requirement.

- If a student takes CORE 180, then he/she should choose from 191 - 198 to fulfill the $19 x$ requirement.
- If a student takes CORE 190, then he/she should choose from 181 - 188 to fulfill the 18x requirement.
${ }^{2}$ Students may select "free electives" for personal enrichment OR for Minor and/or Second Major Requirements.
${ }^{3}$ Students majoring in Neuroscience are required to take CORE 154, MATH 125, and MATH 128. These courses satisfy both major and CORE requirements. CORE 154 satisfies the CORE Social Science requirement and MATH 125 or MATH 128 satisfies the CORE Math requirement.

## General Information:

A student must earn a minimum of 120 credit hours to be awarded the baccalaureate degree. The number of credit hours required for graduation may be higher in certain major programs or if the student elects to pursue a second major.
Beyond the requirements of the Core Curriculum and of a student's chosen major program, the balances of the credit hours required for graduation are "free electives."

## Neuroscience

Suggested Sequence

- Use the information below as a guide when selecting courses.
- Refer to the reverse order when selecting major courses, major electives, core courses, and free electives when applicable.
- Consult your Academic Advisor prior to course registration.
- Refer to the King's College Catalog and/or website for course titles and descriptions.
- Choose one course from each CORE category as listed on the reverse side.
- CORE courses may be taken in any order approved by the academic advisor with the following conditions:
- CORE 100 and CORE 110 should be taken in the first year.
- CORE 115 (or 116) should be taken within the first two years.
- For students selecting a Foreign Language (CORE 14x), every effort should be made to register for that language in the first semester at King's.

| $1^{\text {st }}$ Year - Fall | cr. | $1^{\text {st }}$ Year - Spring | cr. |
| :---: | :---: | :---: | :---: |
| CHEM 113 General Chemistry I | 3 | CHEM 114 General Chemistry II | 3 |
| CHEM 113L General Chemistry I Lab | 1 | CHEM 114L General Chemistry II Lab | 1 |
| BIOL 113 Evolution \& Diversity | 3 | BIOL 210 Organisms \& Their Ecosystems | 3 |
| BIOL 113L Evolution \& Diversity Lab | 1 | BIOL 210L Organisms \& Their Ecosystems Lab | 1 |

|  | 15-16 |  | 15 |
| Minimum Credits Required for Graduation $=120$ |  |  |  |

The standard semester course load is five courses consisting of $15-17$ credits. A student may take 18 credits if the science lab puts them over 17 credits. (For more information about credit loads, please see the college catalog.)
