### **General Information:**

A student must earn a minimum of 120 credit hours to be awarded the baccalaureate degree. The number of credit hours required for graduation may be higher in certain major programs <u>or</u> if the student elects to pursue a second major. Beyond the requirements of the Core Curriculum and of a student's chosen major program, the balances of the credit hours required for graduation are "free electives."

#### NOTES:

<sup>†</sup>The standard semester course load is five courses consisting of 15 – 17 credits. A student may take 18 credits if a lab puts them over 17 credits (for more information about credit loads, please see the college catalog).

<sup>&</sup>lt;sup>1</sup>Choose one course from each of the Core Requirements listed on the reverse side.

<sup>&</sup>lt;sup>2</sup> Course may satisfy both a Major and a Core requirement. MATH 127 or MATH 129 will satisfy the Quantitative Reasoning Core requirement.

 $<sup>^3</sup>$  Students may select "free electives" for personal enrichment  $\underline{\textbf{OR}}$  for Minor and/or Second Major Requirements.

<sup>&</sup>lt;sup>4</sup> The following "Free Electives" are recommended for Computer Science majors: MATH 126, MATH 237, PHYS 111 & PHYS 111L. CIS 106 is recommended particularly to freshman choosing between Computer Science and Computer Information Systems.

PR Course has a prerequisite – check college catalog.
