Medical School³ - First Year

4th Year – (1st Year at Medical School)

First Year Medical School Curriculum will satisfy the following:

- The remaining 7 credits of BIOL Electives required for the Biology major.
- The remaining 13 Free Elective credits required for the King's College Biology Degree.

Required credits remaining credits to graduate from King's College **20**

Total Credits Required for Graduation = 120

NOTES:

¹Choose one course from each of the Core Requirements listed on the reverse side.

²Course may satisfy both a Major and a Core requirement. BIOL 113 and CHEM 113 satisfy the Scientific Endeavor and Science in Context Core requirement. MATH 125 will satisfy the Quantitative Reasoning Core requirement.

³Students will use courses taken at their Medical School to count as the 7 BIOL Elective credits and the 14 Free Elective credits.

⁴Sophomore Seminar – Spring Semester of Sophomore Year

⁵Junior Seminar – Fall or Spring Semester of Junior Year

⁶Senior Seminar – Spring Semester of Junior Year

⁷Research Intensive Course (Biology Elective that is designated as a Research Intensive Course (RIC)

^{PR} Course has a prerequisite – check college catalog.

**The standard semester course load is five courses consisting of 15 – 17 credits. A student may take 18 credits if the science lab puts them over 17 credits (*for more information about credit loads, please see the college catalog*).

We highly recommend that you consider taking classes over the summer to alleviate the intense course-load during the Fall and Spring semesters. Upon successful completion of the first-year professional school curriculum, the student will have satisfied all King's College requirements for graduation.
