Total Credits Required for Graduation = 124

General Information:

A student must earn a minimum of 120 credit hours to be awarded the baccalaureate degree. The number of credit hours required for graduation may be higher in certain major programs <u>or</u> if the student elects to pursue a second major. Beyond the requirements of the Core Curriculum and of a student's chosen major program, the balances of the credit hours required for graduation are "free electives."

NOTES:

¹Choose one course from each of the Core Requirements listed on the reverse side.

² Course may satisfy both a Major and a Core requirement. CHEM 113 and CHEM 114 satisfy the Scientific Endeavor and Science in Context Core requirements. MATH 126 will satisfy the Quantitative Reasoning Core requirement and SOC 101 will satisfy the Human Behavior & Social Institutions Core requirement.

³ A student may take up to 17 credits in the Spring or Fall semesters without being charged for an overload. A "free elective" can be taken for personal enrichment or of Minor and/or Second Major requirements.

⁴A student must take SOC 101 Intro to Sociology to graduate from the Exercise Science Program and it must be completed prior to the spring of junior year (3rd year). SOC 101 will satisfy the Human Behavior & Social Institution Core requirement.

⁵ A student must take MATH 126 Intro to Statistics to graduate from the Exercise Science Program. MATH 126 will satisfy the Quantitative Reasoning Core requirement.

 $^{^{\}mbox{\scriptsize PR}}$ Course has a prerequisite – Consult college catalog for further information.
