General Information			
The 3+2 Physics-Biomedical Engineering Dual Degree Program is	а		
collaboration with Washington University in St. Louis. Students v	vill spend		
three years at King's College taking mathematics, science, engine	ering,		
and general education CORE courses. Eligible students will then t	transfer		
to Washington University for two years to complete engineering			
in their chosen field. Upon successful completion of the program			
students will receive both a B.S. in Physics from King's College an			
in Biomedical Engineering from WashU. (For more information, refer to			

the college catalog).

Notes:

* PHYS Elective required for the King's degree satisfied by any junior or senior level biomedical engineering course at Washington University

Total Credits earned at King's College = 99

Students apply for transfer admission to Washington University in St. Louis after completion of the Fall semester of their 3rd year. Students must have satisfied King's College academic guidelines, as well as the following general criteria:

- For Admission to Washington University in St. Louis
 - \circ Cumulative grade-point average (GPA) of at least 3.25 on a 4.0 scale.
 - o Cumulative technical grade-point average of at least 3.25 on a 4.0 scale (all math, science and engineering courses)
 - \circ GPA must be maintained through Spring Semester of Year 3
 - \circ All grades that transfer to Washington University must be a "C" or higher
 - o At least 60 credit-hours of work that can be transferred to satisfy WashU engineering and general education degree requirements
- The specific admission criteria for each school will be confirmed by the 3+2 Program Director

Notes:

The combination of MATH 231, 237 and 238 taken at King's satisfies the WashU requirements for ESE 318 Engineering Mathematics A and ESE 319 Engineering Mathematics B

¹Choose one course from each of the Core Requirements listed on the reverse side.

² Course may satisfy both a Major and a Core requirement. CHEM 113 and PHYS 113 will satisfy the Scientific Endeavor and Science in Context Core requirements. MATH 129 will satisfy the Quantitative Reasoning Core requirement.

PR Course has a prerequisite – check college catalog.

^{CR} Course has a co-requisite – check college catalog.
