General Information

The 3+2 Computer Science-Computer Engineering Dual Degree Program is a collaboration with the University of Notre Dame and with Washington University in St. Louis. Students will spend three years at King's College taking mathematics, science, engineering, and general education CORE courses. Eligible students will then transfer to Notre Dame or Washington University for two years to complete engineering courses in their chosen field. Upon successful completion of the program, students will receive both a B.S. in Computer Science from King's College and a B.S. in Computer Engineering from either Notre Dame or WashU. (For more information, refer to the college catalog).

Total Credits earned at King's College = 99

Notes:

CS 480 required by King's is satisfied with CSE 40522 CPEG Capstone Design at Notre Dame or CSE 462 Computer System Design at WashU
 The (5) CS Electives required by King's are satisfied by any other 3rd or 4th year level Computer Engineering courses taken at Notre Dame or WashU
