

HEALTHCARE MANAGEMENT

Major in Management – Concentration in Healthcare Management

Develop your competitive edge! Healthcare Management at King's College combines foundational business courses with those providing specialized knowledge and understanding of the healthcare industry. The robust curriculum prepares students for challenging management positions in a variety of healthcare organizations. Students refine their oral and written communications skills, collaborative team experiences, and ethical and socially responsible behavior studies in relation to the needs of established and emerging healthcare organizations.

The Healthcare Management concentration will allow students to understand the major components of healthcare systems and related issues in the administration of healthcare delivery. The curriculum is designed to include the principles of healthcare delivery and its implications for public policy, management, and operations of the healthcare organization. Students will also be prepared to begin their careers with an understanding of managerial responsibilities by applying the basics of financial management and financial techniques unique to healthcare organizations.

What Makes Us Different

Academic Excellence! At King's College you will develop your business skills by taking courses in the William G. McGowan School of Business. The McGowan School of Business is accredited by AACSB International – The Association to Advance Collegiate Schools of Business, which

represents the benchmark of quality for business education worldwide. By earning AACSB Accreditation the McGowan School of Business has proven its commitment to quality and the continuous improvement of our business programs— a powerful differentiator worldwide.

Career Focus

The study of healthcare management is a starting point for a rapidly expanding field. The Bureau of Labor Statistics Occupational Outlook Hand-

book reports “employment of medical and health services managers is projected to grow 20 percent from 2016 to 2026, much faster than the average for all occupations. As the population ages and people remain active later in life, there should be increased demand for healthcare services.” Your career focused education at King's College will assist you through the development of your career path and provide you with the tools of a career integrated curriculum to achieve your successful outcome upon graduation.
