# MASTER OF SCIENCE IN NUTRITION SCIENCE ONLINE PROGRAM

Our curriculum offers a comprehensive study of advanced nutrition topics. Students will learn how to translate and apply that knowledge into evidence-based practice. High impact teaching and learning is used throughout the curriculum to engage students. Examples of these include team-based projects and an ePortfolio.

## TAKE YOUR CAREER TO THE NEXT LEVEL

- Earn your master's degree in as little as 2 years.
- Convenient, 100% online courses led by qualified instructors with vast experience.
- Flexible program allows you to manage your work, studies and life.
- Develop the skills necessary to set yourself apart in the workplace.

With growing concerns over chronic diseases and illness caused by poor eating habits, nutrition is becoming one of the fastest growing fields in the world. The Bureau of Labor Statistics reports that employment for nutrition specialists will grow at a faster-than-average 16 percent through 2024.

If you are in a health-related industry or have an interest in how important nutrition is to health, there is an urgent demand for professionals who are skilled in the use of evidence-based strategies to optimize health, performance and quality of life. With entry-level median starting salaries in the \$60K range, those holding a Master's degree in Nutrition have an edge in this rapidly expanding field.
