

**KING'S  
COLLEGE**  
TRANSFORMATION. COMMUNITY. HOLY CROSS.

ACCEPTING. AFFORDABLE. SEAMLESS.

# YOUR GUIDE TO TRANSFERRING

# THE KING'S EXPERIENCE

King's College is a private Catholic institution located on a small urban campus in Northeastern Pennsylvania. Born from the Holy Cross tradition of our sister institution, the University of Notre Dame, the College prides itself on our exceptional academics and engaged mentorship approach.

No matter what major you choose, you will benefit from our robust liberal arts core curriculum, developing skills that are in high demand by employers. And, unlike larger institutions, our classes are intentionally kept small to **foster discussion, prioritize individual attention, and build your résumé with solid experience and opportunities.**

But the value of a King's degree doesn't end there. As a Monarch, you will learn how to mobilize your talents to serve the common good, setting yourself apart in the hiring process after graduation.

“Transferring to King’s College was a great experience. My advisor and the faculty made everything very simple and took the time to work with me, building a schedule and getting oriented to the College. I really feel like King’s is a great fit for me! My professors are very knowledgeable (and reachable!) and the class size is personal and small.”

**Heather Starr**

Biology  
Milford, PA

If your current school isn’t quite meeting your expectations, there’s a very good chance it never will. And it’s important you immediately feel welcomed and settled in the place you’ll be spending the next few years! Still, students wonder if it’s worth transferring. Here’s why you should consider the choice:

- **It’s easier than you think!** King’s College has been ranked for the past several years on Phi Theta Kappa’s Transfer Honor Roll, reflecting our achievement as one of the most transfer friendly colleges in the nation.
- **And you’ll have constant support through the process.** From the moment you contact us through to your first day of class, you will be supported every step of the way to make sure your transfer is not only easy but also exciting. We’ll help you navigate financial aid, housing placement, and extracurriculars.
- **We have a lot of transfer-friendly majors.** With more than 50 majors and programs in business, health and social sciences, the humanities, and science and technology, you’re bound to find an equivalent or even better major to study.
- **Your transfer advisor will ensure you land in the right spot.** If a compatible major is selected, transferring credits from your current institution is often seamless. Your advisor will walk you through the best course sequence to ensure no classes are repeated and you graduate on time.
- **You’ll feel at home.** If you haven’t visited campus, trust us; you’ll love it here. Almost every student says the friendly community they met during their visit is still just as supportive now that they’re enrolled. If you have visited before, maybe the timing just wasn’t right—we highly encourage you to come back!
- **Your professors (and staff) will genuinely know you.** If you’re lacking personal attention, you’ll find it at King’s. You don’t realize at first how impactful this connection is on your education and in unlocking endless opportunities for your future career.

For those who have taken a break from school and are now eager to complete their bachelor's degree, we have you covered, too. In addition to all the reasons above, King's offers **flexible scheduling options**, including weekend, evening, and online courses. This means you can pursue your degree while effectively balancing your job, family commitments, and other responsibilities.

# ENGAGED ACADEMICS

King's College has many unique academic offerings that make transferring attractive, such as our dual degree engineering programs with the University of Notre Dame and Washington University in St. Louis, our five-year Physician Assistant program, or any of our accelerated bachelor's to master's degree programs. Plus, our preprofessional programs have excellent placement rates in some of the most competitive programs—such as law, medical, dental, and chiropractic school—throughout the country. In fact, if you meet the requirements, we guarantee your placement!

## Other Benefits

**INTERNSHIPS:** Our students complete full- and part-time internships at more than 100 organizations each year, including Disney World, CBS, Wilkes-Barre Scranton Penguins Hockey, and Borton Lawson, giving them great hands-on experience and showing high-profile organizations what Monarchs are made of.

**HANDS-ON LEARNING:** Distinguishing King's from other institutions is the practical learning you'll have when entering the workforce. From simulation training and scientific research to black box theatres and cadaver labs, our graduates are ready to work.

**STUDY ABROAD:** In addition to service trips, our Office of Study Abroad coordinates semester-long placements at partner institutions and two- or three-week faculty led trips in Canada, England, France, Spain, and Sweden, to name a few!

**WELLNESS:** We offer a full host of services to make sure your academic pursuits are balanced with your mental and physical health. The Wellness Center features the latest in sports training technology, and you have free access to qualified, licensed mental health clinicians in our Counseling Center. There are also many opportunities to engage with Campus Ministry or access support through the Academic Skills Center.

## Majors and Programs

### HEALTH SCIENCES

Athletic Training 5-Year\* (B.S. / M.S.)  
Clinical Lab Science and Medical Technology (B.S.)  
Exercise Science (B.S.)  
Exercise Science 3+3 Chiropractic\*\* (B.S. / D.C.)  
Nursing (B.S.)  
Nutrition and Dietetics 5-Year\* (B.S. / M.S.N.D.)  
Nutrition Science 5-Year\* (B.S. / M.S.N.S.)  
Occupational Therapy 6-Year\* (B.S. / O.T.D.)  
Physician Assistant 5-Year\*\* (B.S. / M.S.P.A.S.)

### SCIENCE & TECHNOLOGY

Biology (B.S.)  
Biochemistry and Molecular Biology (B.S.)  
Chemistry (B.S.)  
Computer and Information Systems (B.S.)  
Computer Science (B.S.)  
Engineering – Civil (B.S.)  
Engineering – Mechanical (B.S.)  
Engineering 3+2 Accelerated\*\*\* (B.S. / B.S.)  
Environmental and Ecological Science (B.S.)  
Environmental and Sustainability Studies (B.A.)  
General Science (B.S.)  
Mathematics (B.A.)  
Neuroscience (B.A.)  
Physics (B.S.)

### HUMANITIES

Communications (B.A.)  
Education (B.A.)  
Education – Reading 5-Year\* (B.A. / M.Ed.)  
English – Literature (B.A.)  
English – Professional Writing (B.A.)  
General Studies (B.A.)  
French (B.A.)  
History (B.A.)  
Philosophy (B.A.)  
Spanish (B.A.)  
Theatre (B.A.)  
Theology (B.A.)

### SOCIAL SCIENCES

Criminal Justice (B.A.)  
Economics (B.A.)  
Political Science (B.A.)  
Sociology (B.A.)  
Psychology (B.A.)

### THE WILLIAM G. MCGOWAN SCHOOL OF BUSINESS (B.S.B.A.)

Accounting  
Management – Business Administration  
Management – Entrepreneurship  
Management – Finance  
Management – Healthcare  
Management – Human Resources  
Management – International Business  
Management – Sports Management  
Marketing

### PREPROFESSIONAL DEGREE PROGRAMS

Health – Chiropractic  
Health – Dental  
Health – Medical  
Health – Pharmaceutical  
Health – Veterinarian  
Law – 3+3 or 4+3 Juris Doctor (Villanova)  
Law – 3+3 Juris Doctor (Duquesne)

### GRADUATE DEGREE PROGRAMS

Athletic Training (M.S.)  
Education (M.Ed.)  
Healthcare Administration (M.S.)  
Nutrition and Dietetics (M.S.N.D.)  
Nutrition Science (M.S.N.S.)  
Occupational Therapy (O.T.D.)  
Physician Assistant (M.S.P.A.S.)

*\*Accelerated dual bachelor's and master's program offered within King's College curriculum*

*\*\*Accelerated 3+3 bachelor's and doctorate programs offered with Logan University or Northeast College of Health Sciences to earn a Doctor of Chiropractic (D.C.) degree*

*\*\*\*Accelerated 3+2 dual bachelor's programs offered with University of Notre Dame or Washington University in St. Louis to earn specialized engineering degree*

# A NEW ENVIRONMENT

**ON-CAMPUS LIVING:** Our secured residence halls and apartment buildings are located within a five-minute walk to any academic building, saving you extra time between classes. Our buildings feature 24/7 computer labs, brand-new LG washers and dryers, and each room is fully furnished and includes strong Wi-Fi for streaming and gaming plus cable television. All our housing options are supported by Resident Advisors and Counselors who provide a wide range of non-academic support.

**ON-CAMPUS DINING:** We have five different facilities to give you choices of where, when, and what you eat. Whether you're a resident or commuter, you can choose from different plans and flex dollars to purchase meals, grab-and-go food, or your favorite Starbucks drink.

**ACTIVITIES:** With 50+ clubs, organizations, and programs, you can uncover your passions and develop transferable skills that are critical to your success. The Office of Campus Activities always has something fun on the calendar, like casino or trivia nights, snow tubing and rock climbing, and trips to New York City.

**ATHLETICS:** King's College offers 28 NCAA Division III programs and competes within the Middle Atlantic Conference (MAC) Freedom, one of the oldest and largest DIII conferences in the nation. Our student-athletes can focus their time and efforts on pursuing their passions in the classroom as well as continue to play the sport(s) they love at a high level. Recreational athletes can enjoy several club sports and a growing list of intramural teams.

**AROUND CAMPUS:** Within a three-mile radius, you'll find everything you need, from downtown restaurants, indie coffee shops, and cultural activities to small businesses and big-box stores like Target and Walmart. Martz Bus service is just a short walk away with daily trips to Philadelphia, New York City, and Washington, D.C. You'll feel safe on our attractive grounds and experience the best mix of rural campus and urban setting.

“Coming from a school where connection was not emphasized, I immediately felt the strength of the King's community upon transferring. From the start, I was surrounded by people who cared for both my personal and academic success. This care for fellow Monarchs has carried through all my experiences at King's, whether it be in academics, extracurriculars, or socially and has truly made it feel like a family.”

**Marissa Jason**  
Political Science  
Wilkes-Barre Township, PA

# MAKING THE TRANSFER HAPPEN

## Requirements

To be considered a transfer, you should have completed at least one college credit after graduating from high school. As you consider transferring, it's important to know what steps are necessary.

- Complete the online application for FREE at [kings.edu/apply](https://kings.edu/apply) for the fall or spring semester.
- **Submit** your official high school or college transcripts. Acceptance is conditional upon completion of current coursework in good academic standing.
- King's will perform a transfer credit evaluation. Credit is accepted in transfer for those courses in which the student has received the equivalent of a "C" grade or better and which are applicable to the degree chosen.

## Financial Aid

We go above and beyond to make our high-quality education affordable and accessible to anyone who wants to attend King's College. We start by encouraging every student to apply for financial aid using the Free Application for Federal Student Aid (FAFSA), regardless of their circumstances. In doing so, you'll find out if you qualify for funds to help you pay for college, including scholarships, grants, and other aid directly from King's College as well as grants and loans from the federal government or the state government.

Visit [kings.edu/financialaid](https://kings.edu/financialaid) to learn about all opportunities.

**99%**

of incoming students receive financial aid

**\$20,000**

All students receive merit-based scholarships starting at \$20,000

**\$32,613**

Average financial aid award for first-year students

## SCHEDULE A VISIT

Students tell us all the time that they knew King's was the place for them as soon as they arrived on campus. Schedule a personal visit or join us during one of our admission events!
